

Infertility Network Scotland's Services Include:

Regional Network – Karen Bray, our Regional Organiser for Scotland will help set up support groups, plan and host patient information events in their areas, liaise with health professionals offering infertility treatments and generally provide a localised service.

Website – An exciting and interactive website providing quality information and access to I N UK's services. There is also a section for health professionals.

Professional Advice Line – Run by a qualified nurse.
Monday, Wednesday, Friday, 10am - 4pm

More To Life – A National support network, coming under the umbrella of I N UK and dedicated solely to providing a support service to couples who will remain childless.
Website: www.moretolife.co.uk

Clinic Outreach Scheme – This scheme allows clinics to affiliate to the charity and show their commitment to patient support.

Health Professional Membership Plan – This plan gives all the resources you need to keep yourself informed on the patient's perspective.

Linkline Service – Outside office hours we have an answer machine in operation which gives the name and number of volunteers called 'Linkliners' who work on a rota system to provide 24 hour support.

Helpliners – Members of I N UK who have personal experience of a certain type of infertility or treatment and who are happy to share their experiences with others.

Regional Support Groups – Information on support groups all over the UK.

Medical Advisors – Members can write to our medical advisers, who are all specialists in the field of infertility, requesting an opinion on their condition or treatment received.

Fertility Forest – I N UK has joined forces with the Woodland Trust planting the first ever fertility forest. Dedicate a tree in an area of woodland and become part of this exciting project.

Quarterly Magazine – Distributed to members, affiliated clinics, corporate partners and sister organisations and is available to any interested parties.

Non-Members' Newsletter – A scaled down version of our members' magazine to have in your waiting area for patients to read and take away with them.

Factsheets – We have over 40 factsheets on most infertility related subjects.

Publications – Amazon powered online Infertility Store at: www.infertilitybooks.co.uk

Video/DVD – "A Journey Through Infertility" intended to help give infertility patients an insight into what the journey through investigations and treatment is like and to provide them with information on how to access support and information from I N UK.

I N UK leaflets in Urdu, Punjabi and Chinese – Our information leaflet is available in these three languages. Also available is a Booklet, which gives a synopsis of many of our factsheets, again available in all three languages.

Presentations – We have two presentations which are available to health professionals. "How to get it right for us, the patients", is an interactive presentation where we feedback patients views, promote best practice and explore ways of ensuring that patients needs are met. "The emotional impact of infertility", is a presentation, which can be used in staff training sessions and explores the emotional side of infertility.

Information Events – I N UK's Regional staff organise information days in their areas. These vary in format, according to what is required and can include talks by health professionals, workshops and an exhibition area where companies and clinics can have stands and provide patients with information. Some are evening events and some whole day events. These events are moved around each region to ensure that they are made as widely available as possible.

Please place an order for Infertility Network Scotland or More To Life literature by filling in the form overleaf, and feel free to contact us at any time if there is any aspect of our services you would like to discuss.
